When Apple released the first iPad in 2010, I was running a custom installation business and always looking to deliver extraordinary user experiences to my customers. I developed the idea of an in-wall docking station that provides stationary and mobile use of the iPad as a control device. Today, iRoom is the leading manufacturer of iPad docking stations for commercial and residential environments.

Marc Hofer
iRoom's CEO & Founder

OUR PROMISE

Best-in-Class iPad Docking Stations

Exceptional Craftmanship. Superior Design.
High-Quality Materials.

Unmatched User Experience

Unique Feature Set. Convenient iPad Removal.
Smart Power Management.

Professional Integration

Flexible Installation Options. Control System Connectivity.
iPad Removal with 4-Digit PIN.

State of the Art

Advanced Technology. Always First-to-Market.
Apple-Certified Manufacturer.
